

## July vol weekend

### Saturday, July-18th.

David & Martha Emrey did sidehilling, lopping & weedeating in the Tilson Mill area.

Jeff & Mary Brown blazed & lopped north of VA-617 to the relo.

The remaining crew went south from Poor Valley & beyond Lynn Camp Mountain Top, & completed sidehilling in that area.

Total sidehilling/tread rehab is 1,300' completed on Lynn Camp Mountain, in June & July.

This Lynn Camp mountain work was a tough project over 2 months & 2 years in the planning.

We came away with a job well done, and the trail is in good shape for the coming years.

Thanks to Ed Martin & Andrew(Drew)Jones for keeping me involved & aware of the need.

If you can imagine excessive out sloped/trail creep with rocks & roots, this area was a prime example.

Good job by all involved. Thanks.

Pot-luck was well received by the hungry volunteers.

BBQ by James Baum & Stir Fry by Sylvia. Salads, Deserts & more by others. Yum-Yum.

Tired workers slept well Saturday evening.

See July pictures @: <http://www.path-at.org/gallery/index.php/2015/July-2015/PATH-weekend?page=1>

Hope to see you August-15th for more fun & food.

Jim Houck
