

Volunteer Trip Report June 2010

We had a great volunteer week. We had 35 volunteers for a total of 107 work days. What a fantastic group we have. I would like to thank JIM, John and Michael for all the hard work they put into this Summerfest. Without them I could never do it.

Lets face it. Jim has take over SLAVES job and is doing an admirable job. He puts Atilla to disgrace. Thanks for all you do JIM.

John did a pretty good job in summarizing the work done at Summerfest. He left out Sylvia and her gang. They did rehab work above the puncheons on the south side and also went in Sunday and cut out the limbs on a blowdown so the trail would be passible. Now all we need is for Will to go in and cut the rest of the tree out.

Thanks to Diana Billups for organizing the Saturday hike. Those that did not attend missed a golden opportunity to see the property and hear the history.

By the way we found a cave on our new land. Of course it is too small for entry but who knows what else we may find.
