Our Saturday PATH (Piedmont Appalachian Trail Hikers) 7-member maintenance team. It worked like a well-oiled machine!

The first Thru Hiker, "Maps" to cross the creek on the redirected trail. after a greeting and gift of candy from our teammate, Adriene. Happy trails, Maps!

The busy worksite: redirecting a creek, adding a dam and crossing stones, erecting a fence with four posts and a gate, clearing a new trail to be followed, enjoying the company of our team members! A busy, productive day on the AT.

Yesterday's Appalachian Trail Maintenance Adventure!

Our team of seven PATH members was tasked with rerouting a section of the trail to bypass a troublesome and dangerous cattle crossing, under the amazing leadership of Don, a retired engineer. Six hours of steady work and it was completed!

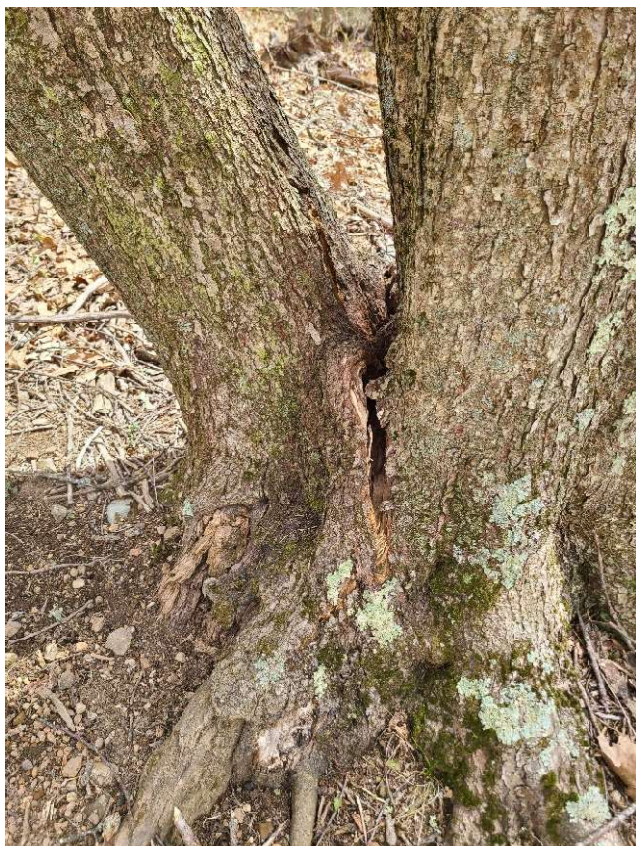

Paul Haag and Team around VA610 and north fork of the Holston

Note the golden blaze!

Ann Ramsey and Marcia Pencola

Chris Bracknell's Sidehilling on Section 15

Ed Martin's Before/After Blowdown Work near Walker Gap

And then dinner and music at the Flat Ridge Community Center
