

August 2012 Volunteer Trip Report

Chris, Jim & Tom Dillon got together Friday August-17th & removed two blow downs South of Dry Run(aka beaver dam-l).

Then we delivered the fence materials for the Davis Family Cemetery to the work site.

We did some layout work & installed a few post & rails.

Saturday the full crew showed & we finished the fence installation.

It was a fun project as we moved around the cemetery, following the shade of the trees as we worked.

Martha & David were happy to see the new fence up & the job completed.

Crews also did weed eating, lopping, etc.

Walt, Charlene & Ann, were glad to see so many folks joining together on their section of trail.

Will, Herb & Jeff Brown cleared blow downs south of Partnership shelter.

David Faucette & his 3 person crew worked North of Nicks Creek Road.

Ed Martin, Tyler Dishmon & Ethan Wingler went in to Poor Valley & worked South to the top of Lynn Camp Mountain.

The Pot-Luck meal was shifted up to Stony Fork Campground, so as to enjoy the evening with the AGATE crew, along with Walt & Charlene at the cabin.

22 PATHiers enjoyed a festive meal & conversation.
